SKILLS

Cloud Platforms
AWS · GCP · Cloud Run · Secret Manager · Cloud Build · Lambda · DynamoDB · Firebase · IAM · Cloudflare

Platform & Ops
Docker · CI/CD · GitHub Actions · Nginx · Linux · Monitoring · Troubleshooting · Runbooks

Collaboration
Jira · Confluence · Slack · GitHub

Backend / Scripting
Python · FastAPI · Django · Bash · REST API · PostgreSQL · Redis

AI Efficiency
Claude · Gemini · OpenAI · Automation

EDUCATION

B.Sc. Computer Science & Engineering
United International University · Bangladesh
2018 — 2022

Engineering & Professional Program
B-JET · Japan
2022

LANGUAGES

English	Professional
Japanese	Conversational
Bengali	Native

ABOUT

Senior Software Engineer with 4.5+ years shipping and operating production systems on **AWS** and **GCP**. Hands-on with Cloud Run, Secret Manager, Cloud Build, Lambda, DynamoDB, Docker, CI/CD, IAM service accounts, Nginx, and production troubleshooting. Uses **Jira** and **Confluence** daily for tickets, change tracking, and runbook-style documentation. Strong at automation and efficiency with Claude and other LLM tools. Based in Tokyo; seeking Senior Software Engineer roles with strong cloud/platform ownership.

EXPERIENCE

Senior Software Engineer / Technical Lead
Nov 2024 — Present
BrandCloud Inc. (NDI Division) · Tokyo, Japan

- Own AWS cloud infrastructure, Docker deployments, Nginx, GitHub Actions CI/CD, and production monitoring for **KnowledgeLinks AI** and related services
- Operate day-to-day delivery through **Jira** (stories, bugs, change tracking) and document procedures and specs in **Confluence**
- Drove cost-awareness initiatives across cloud resources (e.g. EBS rightsizing and cost reduction) and led production troubleshooting through log analysis and root-cause fixes to improve system reliability
- Use Claude and other LLM tools to accelerate runbooks, scripting, review workflows, and operational documentation

Senior Software Engineer
Oct 2023 — Oct 2024
BrandCloud Inc. · Tokyo, Japan

- Built and operated **Benrimono** serverless AWS backend (Lambda, DynamoDB) plus Firebase (GCP) for push notifications and storage
- Configured IAM-backed service access patterns for serverless workloads; maintained Docker workflows and release pipelines
- Handled production support requests via Jira with Confluence-backed product/ops documentation

Software Engineer
Sep 2022 — Sep 2023
BrandCloud Inc. · Tokyo, Japan

- Maintained production Django services with PostgreSQL, Redis, Docker, and CI pipelines
- Improved release reliability through pipeline fixes, environment configuration, and operational troubleshooting

Trainee Engineer
May 2022 — Sep 2022
B-JET · Japan

- Agile delivery, process discipline, and cross-cultural engineering program in Japan

Software Engineer Intern
Nov 2021 — Apr 2022
W3Engineers Ltd. · Bangladesh

- Shipped production features and learned ticket-driven delivery for client projects

SELECTED PROJECTS

PDF Job Intake Pipeline · GCP
Cloud Run · Secret Manager · Cloud Build · IAM · Docker · FastAPI

PDF → review → CRM sync on GCP Cloud Run Jobs/Services with Secret Manager, Cloud Build, IAM service accounts, and ops runbooks.

Private repo

Benrimono · AWS + Firebase
AWS Lambda · DynamoDB · Firebase · IAM

Delivery platform with serverless AWS (Lambda, DynamoDB) and Firebase (GCP) for push/storage — multi-cloud production ops.

Private / NDA

KnowledgeLinks AI · AWS Platform
AWS · Docker · Nginx · GitHub Actions · PostgreSQL

Enterprise AI platform infra: Docker deploys, Nginx, CI/CD, AWS hosting, and production monitoring for multi-tenant workloads.

Private / NDA

AI Support Copilot RAG
FastAPI · Docker · GitHub Actions

Containerized RAG API with Docker packaging and GitHub Actions CI for repeatable deploy automation.

View on GitHub →

AI Workflow Agent Ops
FastAPI · Docker · CI

Ops-style workflow backend with approval gates, retries, execution tracking, Docker, and CI — change-control friendly automation.

View on GitHub →

URL Health Checker CLI
Go · Concurrent checks · JSON/CSV export

Concurrent URL health monitoring CLI with retries, timeouts, and JSON/CSV export for ops troubleshooting.

View on GitHub →

AI Lead Intake Automation
Make.com · OpenAI · Google Sheets · Slack

Lead intake automation: webhook capture, AI enrichment, Sheets CRM sync, and Slack/Gmail alerts for process efficiency.

View on GitHub →

AI Video Generate
Python · Gemini · FFmpeg · Scheduled pipeline

Scheduled short-form video pipeline (Gemini + FFmpeg) showing batch job automation and hands-off operational runs.
